To Whom It May Concern

RE: The Ripple Effect

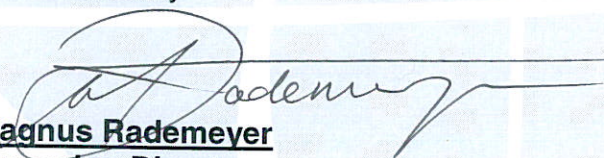

AfriGIS (PTY) Ltd is a Pretoria based IT company specialising in geographical information systems, operational since 1997. AfriGIS has been working with Louis and the Ripple Effect for the past 9 years. The engagements included:

- Company weekends & team building
- Management development
- Corporate strategy
- Consulting

Our continuing involvement with Louis has been beneficial to the company on both operational and strategic levels. Sessions with Louis have led to many valuable insights which were unlocked by a variety of approaches, ranging from his practical 'why?' questioning around certain actions and behaviours, to elegantly broaching the philosophical topics of purpose and balance.

For more information or a personal reference please do not hesitate to contact me.

Yours faithfully

Magnus Rademeyer
Managing Director
