Mr L Gerke
The Ripple Effect

MANAGEMENT DEVELOPMENT PROGRAM (i)

Dear Louis,

As we are coming to the conclusion of our shared management development program (i) I would like to take this opportunity to thank you for all the benefit you have brought to my practice by introducing management structures and skills.

The content, style and energy that you bring to these sessions are informative, useful and motivating and keeps our management structure dynamic and more effective.

At first I was rather skeptical about sharing a program with managers and potential managers from other companies, but I now think that it is rather beneficial because sharing experiences and having outsider point of views enhances the program.

I look forward to MDP(ii).

Yours faithfully

Theo Theophanous
Managing Director
